

## Pocket-sized TV for your Mac

EyeTV DTT is a compact TV tuner stick that offers great value and state-of-the-art technology to deliver digital television (DVB-T, also known as DTT or Freeview) to your Mac. Despite its small size, EyeTV DTT contains a full-size and built-in coaxial plug and does not require an adapter to connect a rooftop aerial. EyeTV DTT is fully compatible with Elgato EyeTV Remote (sold separately).

## EyeTV 3 software inside

- Watch, rewind, fast forward, and pause live TV on your Mac.
- Record hours of television and edit out unwanted content
- Create TV series subscriptions with Smart Guides
- Organize recordings in Smart Playlists
- Export recordings automatically to your iPod®, iPhone™ or Apple TV®.
- Access recordings via Wi-Fi and share with other Macs on a local network

## Enclosed you will find

- EyeTV 3 digital TV recorder software (CD-ROM)
- EyeTV DTT TV receiver
- DVB-T rod aerial with tilt/swivel magnetic base and detachable suction cup
- USB cable
- PDF product manual (CD-ROM)
